

Nakia

(call name Zula)

About

Our team is so in love with our girl Nakia, also known as Zula. Zula is on the larger side of the medium weight class, weighing in at about 45 pounds. She has a beautiful black fleece coat that you can't help but want to snuggle into.

At home, Zula loves to play with her human sister, and her favorite game is catching a ball! When she is not playing, she enjoys snuggling up with her family and watching TV, while giving them a surplus of kisses.

Zula loves other dogs just as much as humans, whether they are old friends, or new ones she meets on walks! Zula knows exactly how to light up a room with her presence and her great behavior is often rewarded with her favorite snacks, either carrots or small peanut butter biscuits.
